Dear Friend of Coastal Virginia,

The new Coastal Virginia Conservancy (formerly Living River Trust) now protects more of your Coastal Virginia community's precious land and water. We continue to be passionate about beautiful Coastal Virginia and honored to be able to work towards keeping our land and water natural, special, and protected. We know **you share that passion for protecting the special place we live, work, and play.**

Our organization uniquely:

- Now protects land in all Coastal Virginia, **forever** keeping environmentally sensitive land in its natural state as we did recently for Newton Neck Park – a new 88-acre waterfront public park in Chesapeake.
- Continues to protect water by cleaning up the river bottom through its award-winning mitigation program, **forever** erasing past environmental damage as we recently completed Paradise Creek project in Portsmouth. Without our work cleaning up the river bottom, other measures such as wetlands restoration and oyster restoration are futile.

**Cleaning up the water and preserving land cannot continue without your help. The time is now, with only 10% of our land left in the Elizabeth River Watershed!** And we know that cleaning the river bottom is the most important step toward a healthy restored river. Simply put, development threatens our land and water, and Coastal Virginia Conservancy can help!

**But as a non-profit organization, Coastal Virginia Conservancy needs resources to meet these needs and solve these problems.** Funding allows us to be nimble and protect land quickly as opportunities arise. Funding can be leveraged toward grants and matching funding partnerships. **Please consider a donation today** noting all donors will receive our new Coastal Virginia car decal and we also are offering our gorgeous new T-shirts, stainless steel wine tumblers, special recognition and admission to our inaugural event to be held this Fall.
